Hello Everyone,

I wasn't sure if the timing was right when I accepted the position of Vice Chair.

It's not difficult to see that we are moving in the wrong direction in Ontario and I sincerely feel that the Ontario Libertarian Party has the only platform that can lead us back to freedom.

However, due to time constraints academically and personal obligations to my family I will have to ask to be removed from the position of Vice Chair.

This has not been an easy decision to make but if I am unable to commit the time necessary to be fully involved I'm simply a placeholder and that isn't fair to the membership or to the party.

I had hoped to be able to balance everything I have going on but am realizing that is not possible. At least, not at the current time.

I hope you can understand.

Thanks for all of your hard work,

James Jolley
